

SUMMARY

The Tempest V is a robust IP65 weatherproof batten ideal for industrial and commercial applications. It features Five-Colour Selectable technology; a first-to-market innovation that gives installers the choice of 5 colour temperatures within 1 fitting for individual preference or application requirements. It also features Multi-Watt Selectable technology, giving you a choice of 8 wattages within 1 fitting for maximum lumen output flexibility. Built tough for high vandalism areas, the Tempest V incorporates a high impact diffuser, stainless steel clips and a quick-to-fit one-piece sealed LED light module. The integrated sensor's dimming function can be conveniently controlled from a distance with the optionally available remote control.
