

# TJX AUSTRALIA PROCESSING CENTRE PROJECT CASE STUDY

# 6,129 SQM

Building area size

The TJX Distribution Centre in Marsden Park Sydney NSW has recently been constructed as a modern benchmark in warehousing faculties for growing brands in the Australian retail space. These brands are prevalent across many countries across the world including Australia, Europe, America & Canada.

Energetic Lighting were delighted to work in conjunction with HJR Lighting and FDC Construction NSW to supply the aesthetic touches that our Nordlux range offers. In this application we used the Danish design inspired Elm Bollard.

Location: Sydney, NSW

Product Used: Nordlux Elm Bollard

The Elm Bollard resulted from a successful attempt to create outdoor lighting that was both modern and decorative. The rigid form combined with the soft, warm, welcoming light, offers a powerful contrast that makes Elm both beautiful and admirable.

Office and Warehouse facilities with 43 car spaces

304sqm corporate office space with an overall site of 74,000sqm comprising a large-scale processing centre
